

Ryder Towing Equipment Ltd

TF1013 LED filter application

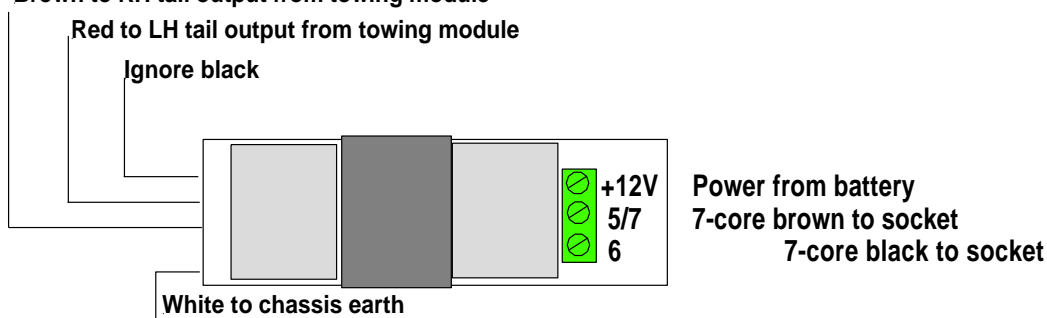

Use a TF1013 in the towing vehicle to prevent its OEM module pulses flashing LEDs on trailer tail and brake circuits

Cut brown and black wires in 7-core cable to trailer socket and fit the TF1013 in line as shown below.

Brown to RH tail output from towing module

Red to LH tail output from towing module

Ignore black

If there is also a pulse on brake LEDs connect black to module LH tail output red to module brake output

If there is also a pulse on brake LEDs connect both 7-core black and brown to terminal 5/7 and 7-core red to terminal 6

Quality – Service – Innovation
